

INFORMATION FOR PATIENTS – CORONAVIRUS

Since the outbreak of the new coronavirus SARS-CoV-2, the Medical Center – University of Freiburg has been preparing intensively for the care of patients affected by it.

Patients with confirmed infections as well as suspected infections are treated in strict isolation from other patients and visitors at the Medical Center – University of Freiburg.

Therefore, there is no danger of an infection in the clinic.

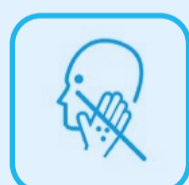

How to protect yourself in everyday life? Keep to general hygienic measures!

- **Maintain a distance to other people and turn away when coughing or sneezing**

- **Sneeze into your elbow or into a paper tissue that you throw away straight after**

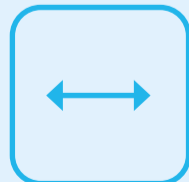

- **Keep your hands away from your face**

- **Wash your hands often and thoroughly with water and soap (at least 20 to 30 seconds)**

- **Avoid physical contact when greeting other people**

- **Maintain physical distance (1 to 2 metres) to people who show signs of illness**

Source: The Federal Centre for Health Education (BZgA) Germany.

These measure are also recommended with regard to the current flu epidemic (influenza).
