Why Choose the Medical Center – University of Freiburg

• Top-ranked university hospital

Among Germany's leading medical centers, combining outstanding clinical expertise with academic excellence.

• Comprehensive medical care

More than 40 clinics, institutes, and interdisciplinary centers cover all medical specialties.

• Public, non-profit institution

As a public university medical center, we are dedicated to healthcare, medical research, and education.

• Innovation & research

International research and collaborations give our patients access to the latest scientific advances, modern diagnostics, and evidence-based treatments.

• Interdisciplinary, personalized care

Complex cases are discussed by specialists from different disciplines to develop an individual treatment plan tailored to each patient's needs.

• Trusted by Patients Worldwide

With over 25 years of experience in international care, IMS is trusted by 2,000+ patients from 20+ countries every year, and 97% would recommend our medical center to their family and friends.
